

Societal Application of Research:

“3D Printed Prosthetic Arms have been donated to a handicapped Person.”

Mr. Nagesh Shinnur is a vegetable seller in Solapur; He lost his both hands in an accident. It was difficult for him to make enough money to feed his family of 5 members. He was referred to the research and development cell by a local social worker. The faculties and students took this assignment as an opportunity to serve the society. They studied the case and submitted technical proposal to an USA based organization “ E-Nable” and obtained 3D printed prosthetic hands from them. It was given to the recipient on the occasion of National Science day by the merciful hands of Secretary of the Society Shri. S. A. Patil Sir.

3D Printed Prosthetic Hands

Prosthetic hands given to recipient by Secretary of Shanti Education Society Hon. Shri S. A. Patil Sir along with Campus Director and Principal Dr. M. A. Chougule and other faculty members.
