

Computer Engineering Department

" Accredited By NBA"

About Us :

Computer Engineering is a discipline that integrates several fields of computer science and electrical engineering required to develop computer hardware and software.

Computer Industry is one of the full grown and still fastest growing industries in the world today.

Technology being a global phenomenon, the computer industry today is employing millions of the people to shoot up business or for entertainment.

Technology has risen today from mere pebble to a huge unbreakable mountain, and this is possible only with the presence of the computers.

Computers at present have become most important aspect of everyone's life. It is no more as luxury but has become necessity of life every field and every stage. This is the reason why every should be well acquainted with the knowledge of computers.

This is an exciting period for the Computer Engineering profession as the rapidly changing technology creates many opportunities and challenges.

Department of Computer Engineering is prepared to meet the challenges and is playing a leadership role in shaping the education of the 21st Century by providing unique educational and research opportunities in the forefront of Computer Engineering and their applications.

In this course you will learn computer software and details of hardware. Software includes different language programming. Microprocessor programming & real time applications, while hardware includes the study of internal structure and organization of computers & networking, which will help you to shape up your career in both computer software & networking.

The students are focused with the use of conceptual understanding of core domain areas in Computing as well as enhanced programming skills disseminating their analytical abilities. Our aim is to provide our students the lifelong learning and leadership skills that enable them to grow in their professions and advance to positions of responsibility by effective Industry-Institute Interaction.

The Department of Computer Engineering established in the year 2008 is rewarded with Excellent remark in Maharashtra
